**FLEX ONE- 3.6KW
EV CHARGER**

Flex series : Portable EV CHARGER

(3.6 kW - WITH 5 METER CABLE)

Features & Functions

Technical Specifications

Electrical specifications

| | |
|-------------------------|-------------------|
| Input Voltage | 220V |
| Output Power | 3.6Kw |
| Input/output Current | 16A Single phase |
| Charging interface type | Type-2 IEC62196-2 |
| Frequency domain | 47-63Hz |

Safety & protection

| | |
|--------------------------|-----|
| Over-Voltage protection | Yes |
| Under-Voltage protection | Yes |
| Overload protection | Yes |
| Short circuit protection | Yes |
| Leakage protection | Yes |
| Unground protection | Yes |
| Temperature monitoring | Yes |

Function & Accessory

| | |
|---------------------|------|
| LCD | Yes |
| LED indicator light | Yes |
| Charger gun length | 5m |
| Charger weight | 3 Kg |
| Current adjustment | Yes |

Certifications

| | |
|------|-----|
| CE | Yes |
| RoHS | Yes |
