WAVE : TYPE-2 AC PORTABLE CHARGER

up to 7.2 kW (Single phase), Cable length 5 meters

Input/output

Rated Voltage	230V
Output Power (Max)	7.2 kw
Output Current	16A/24A/32A
Charging interface type	IEC 62196-2
Input frequency	50Hz+1Hz
Charging Method	Plug&Charge/RFID/Zevpoint App

Working Environment

IP Rating	IP66
Environment temperature	-30 to +60 C
Relative Humidity	5%-95%
Maximum humidity	<2000m
Cooling	Natural air cooling
Efficiency	97%

Dimensions

Weight	6 kg
Length of cable	5 meters
Dimensions of Product	322 X189 X 120 mm

Functions

Smart LED	Yes
Current adjustment	Yes
LCD Display	Yes
Schedule charging time	Yes

Safety

 Warning and Indicator Functions	 Short-circuit Protection	 Over Temperature Protection	 Leakage Protection
 Output Over-current Protection	 Input Under Voltage Protection	 Input Overvoltage Protection	 Charge Status Detection

Reliability

Safety Certifications	CE, RoHS, FCC, CSA
Safety standards	EN 62752: 2016+A1: 2020, EN 61543: 1995/A2: 2006
